Professional Experience

Fóton Informática
Nov 2021 - Nov 2023

Developer, Banking solutions
Brasília, Federal District

- As an intern, using Angular and Java, acted in the development of two banking solutions for a big brazilian bank, the Brasília Regional Bank, one of these two is a ATM management system and the other is the ATM system itself.
- Promoted in less than a year, took on the role of developer and acted, using Angular and SpringBoot, in the development of another system for the same bank, wich consists in the real-time monitoring of ATM's. In this project, with greater responsabilities, in addition to act in the Back-End development, took over the development of the Front-End.
